

DE HOGE RIELEN

## **ESC-project de Hoge Rielen 2023**

*5 Volunteers wanted - Period of maximum 11 months: from 26/01/2023 until 15/12/2023*

De Hoge Rielen is a youth center that has been hosting European volunteers since 2013. In 2023, we want to host 5 international volunteers at our domain for almost a year. Volunteers should be between 18 and 30 years old and are looking for a long term volunteering project under the organization of the European Solidarity Corps.

### **Description of the organisation**

De Hoge Rielen is a youth centre that offers quality accommodation (multiple buildings and camp grounds) to groups and individuals. De Hoge Rielen has a major asset: it's pure nature. Respect for the environment is very important here. As well as adventure, playing in the woods and educational, adventurous and sports activities. No one will ever have a dull moment here!

### **Project environment**

De Hoge Rielen was once a military domain. Today, freedom is the dominant force here. Whatever people want to do: we will do everything possible to boost creativity and stimulate initiatives of our guests.

Our forest is one of the largest children's and youth domains in Flanders, it's over 230 ha. It's a delightful destination for people with a youthful spirit. Each group has its own spot on the domain. Young people come to de Hoge Rielen for multiday group activities, a youth camp, with school, for welcome days or a training. The domain offers many possibilities such as sleeping accommodations, camping facilities and campfire places, nature to play and hike in, a theatre, a sports hall, meeting rooms and a restaurant.

De Hoge Rielen is located outside the small municipality of Kasterlee, in the province of Antwerp. Kasterlee is situated in Flanders, the Dutch-speaking part of Belgium. Dutch will also be the main language used during the project.

### ***Guiding workshops and activities (3 volunteers)***

You're most interested in leading the groups and guiding workshops and activities. We offer you an extensive training in our high ropes course ("klimbos"), which you will guide together with colleagues or other volunteers. You will help out in the educational service, with guiding activities and making preparations for them. We have a diverse offer of workshops going from teambuilding, survival, cooking with forest plants to working in the forest. We encourage you to learn Dutch to use while guiding activities. You like to work in a team and like to work with children and young people. You are not shy to talk to people and speak in front of a group. You will spend a lot of time outside and your interest in nature is very important.

### ***Reception & guest contacts (1 volunteer)***

Your focus will be on welcoming groups at the reception. You will help out the team of "onthaal" with preparing documents for arriving groups, helping with the mail, sorting out files. You will be a big help in the welcoming part of the domain. When groups leave, you handle the practical issues before they leave. You exploit the lending service and help groups with collecting materials. On busy days you can host groups at the restaurant, organising the flood, welcoming the groups and showing them where to go. We encourage you to learn Dutch to use when talking with guests and visitors. You know or are willing to learn how to work with different computer programs. You like to work structured and organised. You are not shy to talk to people and to take initiative.

### ***Communication (1 volunteer)***

You will help out the educational service with its communication tasks. You will create digital content and content for print. You take pictures of events, activities and other aspects on the domain and edit the pictures. You create content for social media and website and help with creative input. You will help in doing research for the magazine of de Hoge Rielen. You know -or are willing to learn- how to manage social media and are creative. You like to work in a team and to share your ideas with colleagues and other volunteers. Experience in working with photo- and video-editing programs (Canva, Adobe Photoshop, InDesign, illustrator..) is a plus. You are motivated to learn Dutch since our main communication is in this language and you are not afraid to communicate with guests.

## **PRACTICAL ISSUES**
